Out West Basketball Association Calgary, Alberta, Canada
Issue 9

Game 8 – Aug. 31 Out West vs. Mainz

Out West played its last game on its 2006 European tour today at Mainz situated close to Frankfurt on the Rhine River. Mainz is an old city famous for a number of reasons including being the home of the original type set press (Gutenberg). The first printed copy of the Bible (1400's) is situated in Mainz.

Mainz is a Division I team and had a number of players that were on German National team and a former member of the Czech Republic National Team. Out West was down by 10 at the half but managed to claw back to win 65-64 in a nail biter. Lindsay Maundrell led scoring with 22 followed by Ashley Dutchak with 12 and Carolyn Plummer with 11.

GREETINGS !

Well, here we are. Another successful Out west Season has been concluded and the Out West players, coaches and management want to extend a farewell to the several hundred of you that have been receiving our 2006 Tour Reports. We hope you have enjoyed keeping in touch with us on our tour.

At this time we want to extend a special *"thank you"* to those who made this season possible, our sponsors. Without the support of the companies listed at the bottom of this report and the people behind those businesses, our 2006 season would not have occurred. Some individuals that we wish to recognize for their help are Paul Colborne (TriStar Oil & Gas), Pat Barrett (Southern California All Stars), Mike Jackson & Jeff Cebryk (Scotia Capital) and Ruth & Larry Birchall (Long Bow Capital). As a result of your support, athletes have gained a unique "life experience", and some of the 2006 team will go on to play basketball in Europe in the future as a result of this season's tour. (Future announcements will follow)

We also want to thank Murray Scotton for his help in distributing our game reports and managing the Out West web site.

For those of you that wish to follow future activities of Out West and news in relation to our players, stay in touch by visiting www.outwestbasketball.com.
